A General Swearing In—Changes Made in Reichstag—Bismarck's Supporters Successful.

BERLIN, Oct. 2.—At Leipsic yesterday Herr Friedber, secretary of state opened the imperial supreme court and administered oaths to Dr. Simson president, and other officers. The judiciary reform decreed by the Reichstag through out the empire also came into operation yesterday. Herr Schneegens, formerly Alsatian deputy in the Reichstag has been appointed ministerial councilor in the new Alsatian administration, Count Wilhelm Bismarck, son of Prince Bismarck becomes secretary to Field Marshal Manteuffel, Governor of Alsace and Lorraine. Field Marshal Manteuffel as Governor issued the following address: I assume the office which the Emperor has intrusted me of imperial Governor of Alsace and Lorraine. May God give me strength to exercise the powers conferred upon me to the glory of the German Empire and to the welfare of Alsace and Lorraine.

ELECTION RESULTS.

The election results in the country districts are in store. So far as received they indicate the success of the conservatives. Herren, Tasker and Richter, two of Prince Bismarck's chief opponents, are probably defeated.

Brighter Prospects.

LONDON, Oct. 2.—The Cleveland iron miners have decided to ask an advance in wages owing to the prospects of trade being much brighter. Mr. Dale, the arbitrator in the greatest dispute in the northern iron trade, has come to an agreement to increase the standard rate of reduction in wages of the Jarrow iron workers, who resumed work under protest against the organized award of 12 per cent. reduction. It is believed that this will end the dispute.

Failure of a Banking Firm.

LONDON, Oct. 2.—James Barber, Son & Co., bankers and merchants, London, have failed. Liabilities £50,000. The failure is owing to losses in the East and West India trade.

Portugal's Declaration.

WISCONSIN, Oct. 2.—A dispatch reports the health commission has declared the Atlantic ports of the United States free from fever, but that New Orleans and Memphis are still infected.

The Military Convention.

ST. LOUIS, October 2.—The Military Convention, at which General Beauregard, first vice-president in the chair, a bill framed to meet the requirements of the military service was taken up and discussed, the bill now being before the House Committee on Armies, was referred to a sub-committee. The committee's report was that it should not be materially changed. The bill was submitted to the committee for revision. The organization under the constitution adopted yesterday is called the National Guard Association of the United States, and its object to secure military efficiency and a full and equal representation before Congress.

The Peabody Fund.

NEW YORK, October 2.—At the annual meeting of the trustees of the Peabody educational fund, Dr. Sears, general agent, read a report. It states that the necessity for the general government to grant a sum of \$1,000,000 to the Southern States, in their efforts to educate the ignorant classes is greater now than ever before, as the evils that grow out of popular ignorance spread blight over the whole country. With two million children still without instruction the danger of the situation is apparent.

The Situation in Memphis.

MEMPHIS, October 2—Noon.—Not a single new case reported. One death since last night, Mrs. Maggie Stewart, at old Barney Graham's place, just beyond the city limits.

The weather is oppressively warm and sultry.

Mrs. W. G. Nicholas, residing four miles from the city on the Hernando road, was stricken with fever last night.

Fever at Concordia.

NEW YORK, Oct. 2.—A Greenville Miss., dispatch says: "The fever at Concordia has taken a fresh start and in all probability will continue to spread until all available remedies are exhausted. Few new cases reported to-day, namely Mrs. Herndon and three colored persons. Sheriff Wilson's condition has not improved.

They Would Meet the English.

LODGE, Oct. 2.—A telegram to the Daily News says: "The townspeople of Kabul asked three Kohistan regiments if they would fight the English. They replied they would meet the English if they went to Kohistan."

Nebraska Republican Convention.

OMAHA, October 2.—The Republican Convention last night renominated General Amasa Cobb for Supreme Judge.

LATE NEWS NOTES.

Secretary Evans has been invited to attend the fair at Cumberland, Md., and is expected to accept.

In the Ingalls Investigation at Topeka, Kansas, yesterday, S. N. Moody testified that J. S. Danford told him that he would give him \$300 to \$600 if he would vote for Ingalls.

It is denied at the post office department that the Seaton House has been rented for political office purposes, and that the commission has yet decided upon any location.

The completion of refunding operations will make necessary a large discharge from the treasury of employees engaged on the 4 per cent. roll. The amount will be about 150 in number.

Nearly eight million dollars was paid out of the Treasury during the month of September on account of pension arrears. But for this, the decrease in the public debt during the month would have been about \$10,000,000.

An order has gone into effect at Fort Madison, opposite the Naval Academy, in Annapolis, which is used as an experimental battery, to the effect that employees shall work eight hours in stead of ten as heretofore. A similar change has been made at the Naval Academy.

A fine fight between a large number of colored people in New Castle, Delaware, Monday evening, resulted in the arrest of about twenty-five of them by the Sheriff, a number of whom were bailed for their appearance at court, and the others discharged. In the effort to

arrest the combatants Mr. Weldon, a policeman, was shot in the foot, and a white man named Murray was shot in the leg. One colored man was shot in the hand.

Schuyler Osborn, of Depauville, N. Y., who committed suicide with Paris fifteen days ago, went to an underworld den to meet his end, and when he would give him a one-horse wagon to do the job. The two repaired to the cemetery and selected the spot, and a few hours later Osborn fulfilled his purpose by furnishing his horse.

Mr. Sprague's trustee was refused admission to Canonchet Monday by ex-Governor Sprague, although he was accompanied by an agent of Mr. Chapman, trustee of the Sprague estate. The object of the visit was to make an inventory of the property in the house, and the Mrs. Sprague might indicate what she claimed as her personal property.

The War Department, at the request of the citizens of Savannah, Ga., has directed that a company of troops from McPherson's Division, Atlanta, be sent to the former city on the occasion of the celebration of the Sergeant Jasper centennial. The 13th infantry band, Atlanta, will accompany the detachment of troops to Savannah.

POLITICAL NOTES.

The nomination of General Hancock or General McRae by the Democrats next year would be a very sagacious move.—*Roston Herald* (Ind.).

Mr. George C. Gorham is trying to draw back into the Republican party. This will neutralize the service which he rendered to the party by leaving it.—*Portland Advertiser* (Rep.).

Better no Republican party at all, in the country districts, than one like that which has faded away. Of course, and puffers, masquerading in the name of Republicanism we have had enough.—*Utica Herald* (Rep.).

A Washington dispatch says that some of the friends of General Grant in that city are picking out the offices they will accept in 1881.

Among the Republican speakers who are to be present at the New York campaign are Hon. Galusha, A. G. Benjamin H. Brewster and Governor Hoyt, of Pennsylvania.

Something has affected the brain of the editor of the *Omaha Republican*. When he heard of General Grant's safe arrival in San Francisco as the editorial columns blossomed forth as follows:

"Cheyenne, W. T. Oct. 2.—Two freighters, recently engaged in hauling Captain Dodge's baggage to the Mississippi Park, arrived here from North Park last evening. They report seeing fresh signs of Indians through the park and of meeting a young Arrapahoe who said he was an Arrapahoe who joined the Utes for the purpose of driving the colored soldiers (Captain Dodge's company) out of the park. They think the Indians were about to proceed to Steamboat Springs to attack Dodge when Thorburn's approach attracted their attention and they attacked him instead.

THE INDIAN WAR.

AS USUAL THE OLD COMPLAINT

THE CAUSE.

Nothing New From Major Thornburg's Command—The Tyner Party Supposed to be Safe.

CHEYENNE, October 2.—Lieutenant Price, who is at Fortification Creek, twenty-five miles back of Thorburn's command, reports that he has thirty men and has received orders to trench and fortify. General Arnold left here on a special train yesterday afternoon. Assistant Postmaster and Governor Hoyt, of Wyoming, with military escort of eight men, it is believed are now with Thorburn's command. It is reported that Agent Meeker, family and employees are murdered and the agency buildings destroyed.

THE CAUSE.

CHICAGO, Oct. 2.—The cause of the outbreak is stated to be owing to the fact that the Indians say they have been starved for the last year and a half and would stand it no longer.

ON THE WAR PATH.

CHEYENNE, W. T. Oct. 2.—Two freighters, recently engaged in hauling Captain Dodge's baggage to the Mississippi Park, arrived here from North Park last evening. They report seeing fresh signs of Indians through the park and of meeting a young Arrapahoe who said he was an Arrapahoe who joined the Utes for the purpose of driving the colored soldiers (Captain Dodge's company) out of the park. They think the Indians were about to proceed to Steamboat Springs to attack Dodge when Thorburn's approach attracted their attention and they attacked him instead.

THE TYNER PARTY.

WASHINGTON, September 2.—Telegraphic inquiry with reference to Assistant Postmaster General Tyner and the party whose presence near the seat of the government may cause anxiety and anxiety for the safety of the country, indicates that they were thought to be hundred and fifty miles east of Milk River and therefore are not in danger, unless the outbreak extends very widely.

THE LABOR-SAVING TELEPHONE.

"Old Sir" Experiments on the Sinfulness of Such Inventions.

Atlanta Constitution.

Old Sir waited until the signal-bell of the telephone ceased ringing. Then said he:

"You w' folks is allus lamentin' how de niggers in dis country not hamperin' us in makin' of er like us to older folks—how de speck deys gwine ter do dat wid all such convensions ez dat dar hangin' up on ebery wall in de lan'?"

"Dah now! dat opens the marter fer debate. I'm wid you now. Dat's what your callers or laber-sabin' convenishun, ain't it?"

"An' whose laber do hit save? Not de w' folks labor, do hit? No! hit de nigger lab' all de time. "Ah! I see your point."

"Well, he's mo' pinter dat dan dat. And the old man made a mouth at the telephone and went out whistling Auld Lang Syne.

GENERAL MOLTRIE'S TOMB.

Charleston News and Courier.

In 1854 a commission composed of several gentlemen of Charleston was appointed to select the cemetery for the Monuments in Geerscross Parish, where General Wm. Moultrie's tomb was supposed to be, and disinter the remains of the late hero of Fort Sullivan and his wife for the purpose of transferring the remains to a more eligible monument to be erected to their memory. The commission, however, failed to discover the cemetery, which was much overgrown with weeds and bushes. Recently a gentleman living in Geerscross Parish, discovered the cemetery. Wm. W. Hill about one and a half miles west of Incleside, the graves being completely hidden from casual view by a dense thicket of plum bushes. Being interested in the matter, the gentleman alluded to made copies of the inscriptions on the tombstones, which are as follows:

MAJOR W. M. MOLTRIE,

Who departed this life December 13, 1796.

He was a man of intrinsic worth,

and who, throughout his life, and uniform, resided throughout the country, secured to him the esteem and admiration of all, who knew him.

HENRY AINSLIE BRAILSFORD,

Obit. Oct. 12, 1863.

Underneath are deposited the remains of Wm. Ainslie Moultrie, Esq.,

Who departed this life on the 29th of August, 1811, in the 33rd year of his age.

He lived

in the anxious pursuit of

Truth, and in the constant observance of Social and Manly Virtues.

He died (alas how soon)

With the piet and resignation of a

Christian.

He was a man of sincere,

In action faithful and in honor clear.

There are several mounds without headstones or tablets. Two of them were pointed out several years ago as those of General Moultrie and his wife.

CHEESE.

Winston Leader, 30th.

The Chicago News has as much check as the average lightning rod agent. It requests Southern publishers to insert \$15 worth of advertising, and give it \$3 worth of "pulling" for the privilege of publishing it. "Now," says the paper, "the Republican party are really inspired by the purpose it pretends to have—namely, to protect the negro whom it fears will be exterminated by the South. The negroes are having hope quite frequently of late."

Our young people are having hope quite frequently of late.

There is a number of our merchants who have gone north for new goods.

DAVIE.

CHEESEVILLE, Sept. 30.—The weather is delightful, and the farmers are harvesting their tobacco as fast as they can. A light frost last week has hurried them on their way.

Miss Alice March, a daughter of Col. Wm. March, of this place, died last Monday night at her mother's in the country. The sermon was preached at the Methodist Episcopal church at one o'clock p. m. to-day. She was a devoted mother, an affectionate wife, a kind and true neighbor, and a true Christian. She leaves many warm and sorrowing friends.

The Winston hotel is running a four-horse omnibus to the mineral spring in Salers daily.

Several oil boards have been sent to Hauseon to work on the large cotton factory which Messrs. Laab & Hage are erecting there.

DAILY NEWS

GEO. C. JORDAN, Editor and Prop'r.
FRIDAY, OCTOBER 3, 1879.

The Cincinnati *Commercial* seems to have recovered from the shock caused by Mr. Davis declining to be a candidate for United States Senator from Mississippi, for it makes the startling announcement that he will probably be the Democratic candidate for Vice President in 1880. The soul of the New York *Tribune* will now be consumed with envy.

The Goldsboro *Messenger* intimates that the Charlotte *Observer's* correspondent, who has such a happy knack of telling about things of which his knowledge is so limited that he gets things beautifully mixed is a Republican. We hardly agree with the *Messenger*, for the fact is, there's no telling what he is. He has jumped the political fence so often that he doesn't know where he belongs or how to tell a straight story. It's about time Jesse Holmes started on a new trip.

In San Francisco, on election day, a Chinaman attempted to vote the Workingmen's ticket. He was immediately arrested, and probably sent to the Asylum. Or perhaps it was a sly trick of the Celestial to carry favor with the Chinese and get the people to remember when the Chinaman got washed out. Then he could have washed-wash all to himself. —*Rockester Morning Herald*.

Oh, why didn't this happen in North Carolina? The Republican journals for the next month would have been filled with double-leaded editorials denouncing bull-dozing.

There is evidently a game well afoot on the part of Secretary Sherman to capture the solid vote of the Southern States in the next National Republican convention. The argument of the case in favor of General Grant cannot afford to overlook this important movement, which is the more difficult to counteract because it has the Federal patronage behind it. —*Philadelphia Record*.

Mr. Sherman's game doesn't amount to much, for isn't Judge Settle in Florida to look out for the ticket? Grant and Settle will sweep the Ohio gentleman out of sight, for the third term proposition is fast becoming a certainty.

The New Haven *Register* gives the following happy and amusing account of the present condition of the New York press:

The New York city newspapers are in a terrible state of disorganization. The *New York Times*, a Republican, is defending Tilden, a Democrat. The *World*, spasmodically Democrat, is bitterly assailing him. The *Evening Post*, Republican, is attacking Cornell, the Republican candidate for Governor. The *Herald*, it seems, takes very charitably, different sides every other day and Jay Gould's "Oklahoma Sentinel" is chanting Bourbon ballads, inspired by the gin mill in the basement of the tall tower, and making a noise in the streets with all the madcap enthusiasm. Somebody seems to have "mixed up" these political babies. We suspect that the "Little Buttercup" is none other than the sly Mr. Tilden. How ever could you do it?

I might also have added that the *Republicans and the South*. New York Times (Rep.).

One of the objections to the Democratic party is that it is ruined by the South, which it is. The South supplies the votes it requires. The Southern Republicans who contemplate the subjection of the Republican party have not this excuse to offer. Unable to supply the votes, we take the liberty of informing them that their pretensions are inadmissible. Where the votes are the power will be; and the power that sustains the party will shape its policy. The fact does not imply forgetfulness of the interest of the party. The South of course claims of those who are there identified with its history and work. Northern Republicans are not indifferent observers of the course of events in the Southern States, or lukewarm in their disposition to provide remedies for evils that are rampant and to bring into exercise the auxiliary agencies which Federal authority directs. If their purposes are to be of any avail, the success of the party must not be endangered by the assertion of claims that are not recognized or by the parade of influences that would bring it into contempt.

Democrats Confident of Success.

Washington Post.

The Radical managers in Ohio started in early to conduct the campaign on a basis of the "Black and Tan" ticket, which was closely adhered to up to the present time. Consequently it about as easy to get at the true condition of affairs in Ohio through the medium of the average newspaper, as it is to discern some set of satisfactory foundations for the Radical cause.

Democrats, in the meantime, have kept their own counsel and contented themselves with working quietly for their ticket. The present result is the Democrats are confident of the success of Ewing with their own extravagant pretensions to enthuse them.

Preparing for Emergencies.

Christian Standard (Ind.).

Bliss, who is now living in Ohio, came as near being born in this State as a man could do whose parents were located on the wrong side of the river. The streams that meander, so to speak, through his native country empty into the Ohio, and the Ohio into the Mississippi, when a child into the brook that washed away his father's fence, flowed this way to the sea. If it seems necessary we can at any time claim that James is an Ohio man.

The BLACKVILLE POSTOFFICE.

Way down in South Carolina somewhere is located the city of Blackville. Whether or no it is the place made famous by Sol. Etington in his burlesque sketches that have appeared from time to time in *Harper's Weekly*, wherein "the twins" figured with laughable effect, we cannot say; if so there is a fresh chance for further work in his line.

Blackville's population, drawing the color line, to the extent of about three-fourths harmonized with the name of the place—which is correct. Until recently the representative of the United States government, or that portion of it that attends to the incoming and the outgoing of the mails, was a lady. She had given satisfaction, it is believed—at least there were no charges of mismanagement or inefficiency preferred—but it so happened that Mr. Fred Nix, Jr., a descendant of one of the sons of Afric's burning soil, became office-stricken, and that the colored people might be represented by one of their race, the lady was removed and Mr. Nix was duly commissioned and installed.

Thereupon he became possessed of the idea that he was to be made a martyr on the race issue. Forthwith he provided himself with an immense horse pistol, expended a quarter's salary for powder and shot, and thus, like Fitzjames, prepared to stick and enforce discipline. Any old woman

that dropped in for a long expected letter was, in his frightened mind, a Ku-Klux in disguise; any gentleman that came for his daily mail was viewed with suspicion, for are not the white Democrats bound to stamp out such and every Republican office-holder in the South? So Mr. Nix delivered his mail with one hand and presented his pistol with the other.

Some five miles from Blackville a young man named Williams has made it a point of residing; he has done so for about eighteen years—in fact ever since he was born. Bad feeling has existed between the two for some time which culminated some six weeks ago in a street affray. This was before it was known that Nix was to supersede Miss Maher. A fortnight since Mr. Williams went to the postoffice for the purpose of mailing a letter, and Mr. Nix, probably thinking that a more extended sale of stamps would make a better showing of his office with the Department, put on another one without authority and demanded payment therefor, producing his revolver—certainly a most weighty argument. The next day Mr. Williams went for his mail, taking care to provide himself with an argument of like nature. And then the trouble commenced. Shot were exchanged and a running fire kept up for some time. When the battle ended Mr. Nix was so terribly wounded that it required nearly a cent's worth of court-plaster to cover the marks of the conflict and head the deadly scratch. Only one shot had been exchanged at short range.

And thus closed the second "rebellion against United States authority"—at least that is what the *Tribune* called it when making the appeal to the Postmaster-General to close the office. "It was a clear case for prompt interference by the authorities—a colored postmaster shot down in cold blood while doing his duty for the terrible crime of being a black man."

And what does the Postmaster-General say in reply:

We have but a one-sided story, and I intend to have it the case fully. From what have been I should judge that, under similar circumstances, the same thing might have happened in any Northern town. Nix is a negro and the whites don't want him in office. Had the community been an ordinary one, probably he would not have been appointed, but the population of Blackville is largely colored, and the colored people are fond of avoiding a negro to some office. There was special reason for it in this case, because the agent recommended him. No sooner had he taken the place, however, than Senator Butler wrote him to let him know of his incompetency. I regard Senator Butler as an honorable man, and have no doubt that he wrote what he believed to be true. If it was true, of course Nix was unpopular for other reasons than his color, and although the method by which he attempted to make to eject him was decidedly reprehensible, it is evident that a white person alone can fit the office acceptably.

The Rank and File Deserting Kelly. New York Herald (Ind.).

It is only the Tammany captains and leaders who are so foolish as to feel it necessary to make any such a statement. The rank and file will be prepared to vote the regular Democratic ticket as soon as they find that Tammany, which has already lost all its patronage, has no chance of regaining it. But the result of the election, Mr. Kelly may realize the saying of the poet, "Friends one by one depart; who hath not lost a friend?"

Sherman Had Better Hurry.

Colonel Campbell, whoever he may be, is now on the stump in Ohio, and the Tammany leaders are to nominate Grant for a third term. Colonel Campbell had better be taken down, for he certainly has very little idea of what the issue in Ohio is. It is no wonder Secretary Sherman has been asked to hurry back into the State.

Grant and Hayes seem to be running well in the West. Grant draws the biggest crowds, but Hayes makes the longest speeches.

Only by this Mode.

Philadelphia Times.

Ex-Governor Hendricks has taken another inventory of his opinions and finds that he still has in stock a pretty

large assortment of powerful objections to taking the second place on anybody's ticket. It is by ever-recurring announcement of this kind that the public is enabled to keep in mind the fact that ex-Governor Hendricks still lives.

White Labor Increasing.

Savannah Morning News.

The cotton crop of Mississippi this year will turn out to be a good one, and the statistician, who is already at work, says that more than fifty per cent of it will be gratifying to all who really desire to see the Southern States prosper. It indicates such industry and self-reliance as has been steadily wanting in the section. The information relative to plantings and cultivation of the soil, the cultivators of the soil have learned something useful. Many of them have abandoned the old anti-bellum custom of covering as much acreage as possible, and now devote their attention to enriching a smaller area of ground, which is increased in value. By this means a wheat crop has been decreased so that the whites can perform it, and there are numbers of plantations on which the work has been done altogether by whites.

How Halsted Stands.

Cincinnati Commercial (Rep.).

Our position on the Grant boom is very affectionately inquired into. We think it highly proper to give General Grant a first-class reception, but we do not think it would be the part of wisdom to run him for the Presidency again.

We hope this is satisfactory.

GOSSIP FOR THE LADIES.

Severed Hearts Shall be United.
When last the spring's young flowers
bloomed,
We promised ne'er to part;
But in thy cold white hand to-day
I hold the broken heart,
And take it more than once again.
And fondly keep it there,
I dare not trust it with myself,
'Tis safer in thy care.

But thou wilt give it back to me,
All blighted with thine own.
When I shall clasp thee once again
Beside the great White Throne,
Where no tender tie is severed,
No tear nor broken heart,
And fondly keeping them at love's deep
fount.

We never more shall part.

Since the death of Speaker Kerr and Senator Morris of Bright's Disease, it has been observed that a large number of our public men and leading business men die too early from the same or a similar cause. By using Warner's Safe Cure, their diseases will be cured, and their valuable lives prolonged. The time is coming when, because of this remedy, no one will die of such diseases as Bright's and Diabetes.
